Luke 21:34-36—“But take heed to yourselves, lest your souls be weighed down with self-indulgence, and drunkenness, or the anxieties of this life, and that day come on you suddenly, like a falling trap; for it will come on all dwellers on the face of the whole earth. But beware of slumbering; and every moment pray that you may be fully strengthened to escape from all these coming evils, and to take you stand in the presence of the Son of Man” (Weymouth New Testament).

An article by Mark Huffman titled “The Rising Cost of Groceries by State (2024)” was updated at consumeraffairs.com on Nov. 22, 2023. Following are excerpts of the article.

Grocery shoppers in every town and city know that the nation’s food prices are higher than just a few months ago. But what remains hidden from American shoppers is that in some locations (like Pennsylvania) prices have actually risen twice as fast as in others (like Colorado). What gives?

This is the topsy-turvy reality of local food prices that gets masked by nationwide inflation data and headlines.

A ConsumerAffairs analysis of grocery price data in 15 categories (collected in real time in 150,000 stores by our partners at Datasembly) finds grocery prices increased 5.3% year over year. No surprise there. That’s actually a dramatic improvement for grocery shoppers compared with the pace of food inflation in 2022. Going back two years, prices on those same goods have risen 25.5% nationwide.

The surprise is that in the past 12 months, grocery inflation has varied by as much as 5% from

state to state. In dollars and cents, that means where you live could make a \$500 a year difference for a family of four that spends \$750 a month on groceries – enough to drive a sizable number of Americans to take on new debt.

As of mid-November [2023], the states seeing the largest increase in these items are clustered in the Northeast and mid-Atlantic states.

- | | | | |
|------|----------------------|-------|---------------------|
| 1. | Pennsylvania – 8.2% | 7-12. | Connecticut – 6.4% |
| 2-3. | Maryland – 7% | | Florida – 6.4% |
| | Vermont – 7% | | Iowa – 6.4% |
| 4. | West Virginia – 6.9% | | Montana – 6.4% |
| 5. | New Jersey – 6.8% | | North Dakota – 6.4% |
| 6. | Massachusetts – 6.6% | | South Dakota – 6.4% |

The states with the lowest grocery price hikes are located all over the map, but over 12 months their price hikes were barely half as large as Pennsylvania's.

- | | | | |
|------|-----------------------|------|-----------------------|
| 1. | Colorado – 2.9% | 6. | Nevada – 4.2% |
| 2. | Arizona – 3.3% | 7. | South Carolina – 4.3% |
| 3-4. | Michigan – 3.5% | 8-9. | Indiana – 4.4% |
| | North Carolina – 3.5% | | Ohio – 4.4% |
| 5. | Virginia – 3.6% | 10. | Oregon – 4.5% |

Why does price inflation vary in different states and cities?

Julie Compane (Vericast's director of client strategy for the grocery industry) says it's often hard to detect why price hikes for the same product vary in different markets.

She said: "Reasons include the differences between supply chain and overhead expenses – like local labor, utilities, tax and real estate costs."

Philadelphia had among the nation's highest grocery price increases this year, while Richmond, Virginia (253 miles down Interstate 95) had among the nation's lowest.

In Philadelphia, the cost increased by 7.1% over the last 12 months. Yet, in Richmond, the cost is up just 2.3% – well below the national average of 5.3%.

Metros that experienced the largest price increases over the last 12 months are:

- | | | | |
|----|------------------------|----|----------------|
| 1. | Philadelphia – 7.4% | 4. | Baltimore – 7% |
| 2. | Albany, N.Y. – 7.2% | 5. | Boston – 6.7% |
| 3. | Syracuse, N.Y. – 7.1 % | | |

Consumers looking for tangible ways to manage their money can often reduce the burden of inflation by adjusting their menu – substituting a less expensive food for a more expensive one.

But sometimes that can't be done. For example, a family with a newborn may have to purchase infant formula. Unfortunately, the price of infant formula has risen more than any other grocery category over the last year.

- | | |
|---------------------------------------|-------------------------------|
| 1. Baby formula – 17.5% | 9. Fruit/vegetables – 4.9% |
| 2. Candy/gum – 9.7% | 10. Cereal – 4.8% |
| 3. Pet food – 8.5% | 11. Baby food – 3.6% |
| 4. Cookies/Crackers – 6.6% | 12-13. Bakery – 3.4% |
| 5. Beverages – 6.5% | Baking – 3.4% |
| 6. Seasonings/sauces – 5.7% | 14. Grains/Beans/Pasta – 1.5% |
| 7. Snacks – 5.6% | 15. Meal solutions – 0% |
| 8. Condiments/spreads/dressing – 5.2% | |

Isaiah 55:6-11—“Seek you the Lord while He may be found, call upon Him while He is near. Let the wicked forsake his way, and the unrighteous man his thoughts; let him return to the Lord, and He will have mercy on him; and to our God, for He will abundantly pardon. ‘For My thoughts are not your thoughts, nor are your ways My ways,’ says the Lord. For as the heavens are higher than the earth, so are My ways higher than your ways, and My thoughts than your thoughts. For as the rain comes down, and the snow from heaven, and do not return there, but water the earth, and make it bring forth and bud, that it may give seed to the sower and bread to the eater, so shall My word by that goes forth from My mouth; it shall not return to Me void, but it shall accomplish what I please, and it shall prosper in the thing for which I sent it.”
