But beware of slumbering; and every moment pray that you may be fully strengthened to escape from all these coming evils, and to take you stand in the presence of the Son of Man” (Weymouth New Testament).

An article by Scott Powell titled “Biden and the 16-Year Plan to Breakdown America” was posted at townhall.com on March 11, 2024. Following are excerpts of the article.

America’s current weak and precarious state happened not by chance, but by a plan – a 16-year plan that started with two terms of Barack Obama and an anticipated two-term presidency of Hillary Clinton.

Upon taking office, Obama first undertook an apology tour to Europe and the Middle East that was best described by Obama himself in his assertion that America should “lead from behind.”

Over his two terms Obama undertook the following policy initiatives.

- Curbing fossil-fuel usage and production.
- Imposing federal restrictions on hydraulic fracturing.
- Rejecting the Keystone XL pipeline.
- Embracing the Paris Climate Accord.

On the defense and foreign policy front, he did the following.

- Cut military spending.
- Purged 197 “American First” generals and admirals.
- Attempted to close Guantanamo.
- Strengthened the Muslim Brotherhood.
- Contributed to fomenting the Arab Spring in 2011.
- Contributed to the rise of ISIS.
- Before leaving office, Obama transferred \$1.7 billion to Iran.

Among his domestic policies, he focused on the following.

- Sought to weaken and nullify the Second Amendment.
- Undermined law enforcement on racial grounds.
- Relaxed the U.S. southern border.

It was expected that Hillary Clinton would follow Obama and complete the 16-year plan, which included the following.

- Closing U.S. military bases globally.
- Revising the Constitution – notably replacing the electoral college (with popular vote).
- Banning the sale of firearms.
- More media control.
- Censoring alternative independent news.

When Donald Trump defeated Hillary Clinton, the 16-year plan was interrupted. Trump wasted no time in reversing Obama’s policies.

- Putting America First.
- Securing the southern border.
- Achieving oil and gas energy independence.
- Spurring the economy through tax cuts and deregulation.
- Strengthening the U.S. military.
- Rebuilding foreign alliances.

Voting irregularities made Trump a one-term president.

Biden was the ideal candidate for the globalist deep state operatives, because of his cognitive decline and low energy – enabling them to get the 16-year plan back on track on steroids.

- No surprise that on Biden's first day in office with a stack of executive orders, he reversed more than half of the Trump initiatives.
- What followed has been nothing short of a government against the American people.

President Biden's State of Union Address last week was shocking, laced with lies and vindictiveness directed at more than half the nation's population – the likes of which no prior president ever delivered.

So appalling was Biden's State of the Union performance that Democrat operatives had no choice, but to remove and replace Joe Biden before the November elections. Disturbing as the past year's Congressional hearings have been, they have awakened Americans about massive corruption in the Biden family and unconstitutional operations of the FBI and DHS and other elites in and beyond the Democrat Party.

The 16-year plan presents a shocking reality that is hard to explain as anything other than a willful selling out of the American people for money and a globalist power transition.

Normally, the State of the Union speech is an opportunity to highlight the successes of a president. Not so for Joe Biden. It's worth revisiting his administration's major policy initiatives which are all part of the now accelerated 16-year plan.

- Some 9-10 million migrants have entered the U.S. under Biden's open border policies, resulting in huge costs to host cities and risks to those communities through which they pass and in which they settle. Also, significant number of males of military age have come to the U.S. from China and other hostile countries.
- The assault on American national character by willful revision and destruction of U.S. history and historic monuments.
- The willful stoking of social division from ever-expanding ethnic groups, classes, and genders – also manifests in the LGBTQ assault on the American family.
- Removing God from the culture and subverting morality and family values that are rooted in and are an essential part of America's Judeo-Christian heritage.
- Constant attack on the Constitutional basis of the American government.
- The systemic attack on police and law enforcement and the promotion of a two-tiered justice system.
- The willful demoralization of the U.S. military by critical race and diversity training programs that exacerbate class and race warfare within the ranks, and now the chief cause of

military recruiting shortfalls.

- The promotion of climate change that results in more dependence on China for lithium batteries and solar panels while also undermining the U.S. oil and gas industry – in which we have an economic comparative advantage relative to other countries.
- The reckless and increasing deficit spending by government, which hastens the collapse of the U.S. currency and the U.S. government debt market.
- The manipulation and attack on the integrity of the U.S. elections, which demoralizes the American people and de-legitimizes the U.S. government.

In summary – as we actively prepare for national elections in November that should deliver a turning point and correctives to our current national predicament, we must also prepare to take on the powers and forces behind the 16-year plan – who are now more desperate than ever. The road ahead will be fraught with more deception, disruption, and violence than anything we have previously experienced.

- During upcoming turmoil, we are always on solid ground when we prayerfully adhere to and fight for the rule of law and the Constitution.
- The sword and shield of First Amendment rights cannot be canceled for they are God-given and protect freedom of thought and competition of ideas and facts that root out falsehood and evil – and illuminate the way forward.

An article by Alec Tyson and Giancarlo Pasquini titled “How Americans View the Coronavirus, Covid-19 Vaccines Amid Declining Levels of Concern” was posted at [pewresearch.org](https://www.pewresearch.org) on March 7, 2024. Following are excerpts of the article.

-
- Only 20% of Americans view the coronavirus as a major health threat to the population.
 - Only 10% of Americans are very concerned they will get it and require hospitalization.
 - Just 28% of U.S. adults say they have received the updated covid-19 vaccine.
 - A larger share of U.S. adults (44%) have gotten a flu shot in the last six months than an updated coronavirus vaccine (28%).

Looking back to October 2018, an article by Lukas Mikelionis titled “Democrats’ Illegal Immigration Tune Has Changed Over the Years Despite Incoming Caravan” was posted at foxnews.com on Oct. 24, 2018. Following are excerpts of the article.

President Trump used his predecessor’s own words against him when he quoted President Obama’s forceful 2005 opposition to illegal immigration, but he could have cherry-picked an old quote from any number of top Democrats on the controversial subject.

- Barack Obama

On Tuesday, Trump tweeted a 2005 video in which then Senator Obama made a statement against illegal immigration, accompanied by the comment “I agree with President Obama 100%.”

Obama said in the 31-second clip: “We are a generous and welcoming people here in the United States. But those who enter the country illegally and those who employ them disrespect the rule of law and they are showing disregard for those who are following the law.”

Obama added: “We simply cannot allow people to pour into the United States undetected, undocumented, unchecked, and circumventing the line of people who are waiting patiently, diligently and lawfully to become immigrants into this country.”

Trump could also have opted to share Obama’s 2013 State of the Union’s address where he promised to put illegal immigrants “to the back of the line behind the folks trying to come here legally.”

Obama continued: “Real reform means strong border security, and we can build on the progress my administration has already made – putting more boots on the Southern border than at any time in our history and reducing illegal crossings to their lowest levels in 40 years. Real reform means establishing a responsible pathway to earned citizenship – a path that includes passing a background check, paying taxes and a meaningful penalty, learning English, and going to the back of the line behind the folks trying to come here legally.”

- Chuck Schumer

Senate Minority Leader Chuck Schumer has become a fervent critic of Trump’s immigration policies. . . But in 2009, Schumer took the exact hardline view.

Schumer said during a talk at Georgetown, University: “The American people are fundamentally pro-legal immigration and anti-illegal immigration. We will only pass comprehensive reform when we recognize this fundamental concept.”

At that speak, Schumer listed seven principles of any immigration reform. Here was the first comment: “First, illegal immigration is wrong, and the primary goal of comprehensive

immigration reform must be to dramatically curtail future illegal immigration.”

- Nancy Pelosi

House Minority Leader Nancy Pelosi, just as Schumer, has taken a radically different position in the past.

During a 2008 press conference, she said: “Do we have a commitment to secure the border? Yes. What are the options that we have available to us, let’s make sure they work. Because we do need to address the issue of immigration and the challenge we have of undocumented people in our country. We certainly do not want any more coming in.”

In 2013, Pelosi reiterated her support for the border security, urging the House to vote for a bill that included “our basic principles” such as securing “our borders.”

- Bill Clinton

During the 1995 State of the Union address, Bill Clinton received a standing ovation when he said: “All Americans, not only in the States most heavily affected but in every place in this country, are rightly disturbed by the large numbers of illegal aliens entering our country. The jobs they hold might otherwise be held by citizens or legal immigrants. The public service they use impose burdens on our taxpayers. We are a nation of immigrants. But we are also a nation of laws. It is wrong and ultimately self-defeating for a nation of immigrants to permit the kind of abuse of our immigration laws we have seen in recent years, and we must do more to stop it.”

Isaiah 55:6-11—“Seek you the Lord while He may be found, call upon Him while He is near. Let the wicked forsake his way, and the unrighteous man his thoughts; let him return to the Lord, and He will have mercy on him; and to our God, for He will abundantly pardon. ‘For My thoughts are not your thoughts, nor are your ways My ways,’ says the Lord. For as the heavens are higher than the earth, so are My ways higher than your ways, and My thoughts than your thoughts. For as the rain comes down, and the snow from heaven, and do not return there, but water the earth, and make it bring forth and bud, that it may give seed to the sower and bread to the eater, so shall My word by that goes forth from My mouth; it shall not return to Me void, but it shall accomplish what I please, and it shall prosper in the thing for which I sent it.”
