---

Stephen Covey wrote about “the Emotional Bank Account” in his book “The 7 Habits of Highly Effective People.” Following are some excerpts.

On page 188, Covey wrote: “We all know what a financial bank account is. We make deposits into it and build up a reserve from which we can make withdrawals when we need it. An Emotional Bank Account is a metaphor that describes the amount of trust that’s been built up in a relationship. It’s the feeling of safeness you have with another human being.

“If I make deposits into an Emotional Bank Account with you through courtesy, kindness, honesty, and keeping my commitments to you, I build up a reserve. Your trust toward me becomes higher, and I call upon that trust many times if I need to. I can even make mistakes and that trust level (that emotional reserve) will compensate for it.”
